Dental visits are often a source of great anxiety for children with special needs, as well as their parents. Discussion will include a “walk-through” of what can be expected at your child’s visit to the dentist. The Drs. will review behavior management techniques, homecare instructions, and most frequent dental anomalies (missing teeth, malformed teeth, etc.) and oral manifestations of Down syndrome/special needs. Through knowledge and experience potential dental treatment can be anticipated and treated routinely.

Important: Due to space limitations, prior registration is required.
Please call 516-983-7008 or Email: dsaf2@optonline.net to register to attend.
